

Energy Protein™ WITH MACA

NON GMO

- 100% Organic Plant Protein
- 25g of Protein Per Serving
- Hypoallergenic

The Ultimate Vegan Energy Protein is comprised of organic sprouted brown rice protein—the Cadillac of plant-based proteins because it is a non-GMO sprouted whole grain complete protein that is made from the whole rice grain (including the bran, germ, and endosperm). It is processed using low-temperatures (never heated past 90 degrees °F) without any chemical additives like hexane. This creates a superior raw plant-based protein with pure amino acids in their most bioavailable forms, which greatly enhances the quality, digestion-rating and bioavailability of the protein as well as ensuring high levels of naturally-occurring vitamins (especially B vitamins), minerals, antioxidants—tocopherols and tocotrienols—and other essential nutrients. It is also a completely hypoallergenic protein. Unlike most plant proteins, Ultimate

Vegan Energy Protein with organic sprouted brown rice protein, is the highest quality protein among all cereal grains, containing all essential and non-essential amino acids and a good ratio of the extremely important branched chain amino acids (BCAAs), which are necessary for cellular repair.

NOTE: Many vegan protein supplements on the market cut their products with inexpensive proteins like pea (usually the first ingredient in these formulas, to save cost and increase profits), which causes digestive complaints and gas in numerous individuals.

A One-Two Punch with the Addition of Maca Energy

Ultimate Vegan Energy Protein contains the added benefit of a full 3-gram serving (per dose) of the highest quality organic gelatinized maca available today (Ultimate Maca Energy™) to ensure maximum energy enhancement, hormonal support and stress adaptation. No other plant protein formula has this quantity and quality of maca in their product.

Each 50 g Serving (2 Scoops) Contains:

Medicinal Ingredients:

Organic Sprouted Brown Rice Protein (Oryza) (grain) 36 g Organic Gelatinized MacaPunch™ Powder (Lepidium meyenii) (root) 3 000 mg
 Providing 25 g of proteins

Non-medicinal Ingredients: Natural vanilla flavour, xanthan gum.

Suggested Usage: Mix 2 scoops (50 g) with 250–350 mL of water or juice in a shaker cup or blender.

CODE: 0395-750g
